

# FLASHING SOLUTIONS WITH NUDURA ICF

Durable, flexible sealants offering excellent adhesion

Tremco offers a complete product portfolio to meet any demanding job site condition. Such products include an impermeable, self-adhered roll membrane as well as a durable, flexible sealant which both offer excellent performance mitigating air infiltration/ex-filtration, vapor transmission and water penetration around window and door locations.

## ExoAir® 110AT

ExoAir® 110AT is an impermeable, self-adhered sheet designed to mitigate air infiltration/exfiltration, vapor transmission and water penetration.

### Features & Benefits

- Primerless application allows for faster installation time
- Variety of widths available for job specific needs
- Reduced material weight minimizes fatigue on installers and can increase productivity

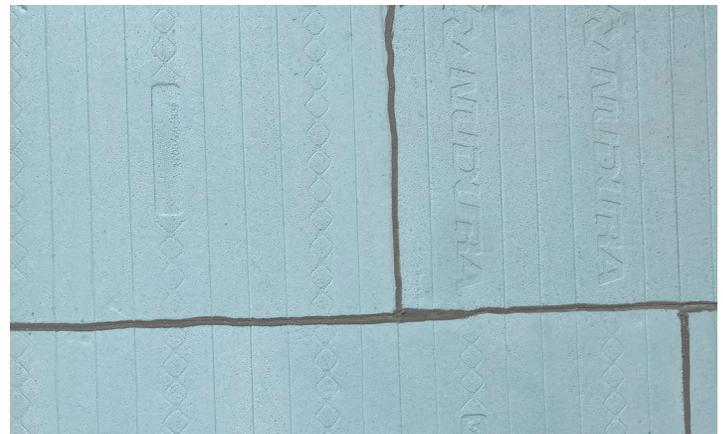

# Dymonic® 100

Dymonic® 100 is a high-performance, high-movement, single component, medium-modulus, low-VOC, UV-stable, non-sag polyurethane sealant.

## Features & Benefits

- Primerless adhesion
- Single-lift application without mesh, laps or seams
- Fast, UV stable cure
- Highly compatible with Enviro-Dri and insulated concrete forms

### ExoAir 110AT Application

*ExoAir 110AT can be used as a membrane or as a detailing accessory for an air barrier system.*

### Dymonic 100 Application

*A durable, flexible sealant that offers excellent adhesion in moving joints.*
